The Roost Café, more popularly known as Roost, is a quiet place where the player can grab a cup of coffee for 200 bells, for here or to go, after adding it to the player's city. Roost is owned by a pigeon named Brewster. ==Unlocking the café==At the beginning of the game, the Roost café is not available on the public works project menu. This is because, in order to be able to place it somewhere in the city, you have to meet the following qualifications. Donated at least 50 items to the city's local museum At least 7 days have passed since the museum opened the second floor. After the player has met the requirements, he/she should enter the museum and talk to the owl, Blathers. Blathers will suggest this public works project to the mayor, and then it will be available on the public works project menu. The museum is on the main street. Things to do in the café [editing | editing source] Inside of the Cafe. There are different things that the player is able to do in Roost when it is built. KK Slider does not play at the café on Saturdays in May, as he now performs music at Club LOL. Can I take it? [editing | editing source] There is an option to not only take a seat at the counter, as the player can in previous games, but the player can now order out coffee after him/her warms up to him a bit. Brewster will give the player the option of having a cup of coffee in a cup of go after the player visits him for some caffeine every day for a little while. With this, the player can walk around the city with a cup of coffee in his/her hand and press the Y button to take sips. After 4 coffee drinks, the player will chug the rest down, and the cup of coffee will disappear from the inventory. With each sip, the player character will look refreshed and happy. Working part-time [editing | edit source] Once the player has been getting his/her daily coffee from Brewster, either from sitting at the counter or grabbing a quick cup to go, he will eventually offer a part-time job at the café. If someone agrees to help him, the player will be put behind the meter for a while, and the player will make orders for the locals who appear. The only problem is that of the three different type, sugar, and milk, satian or NPC options will say only one or two that you want. The rest is luck, unless the player wants to check the coffee guide here [edit | edit source] Keeping track of local coffee Make customers satisfied, and although it takes a lot of time and effort, if the player correctly guesses all three ingredients, the player will receive a compliment and make the customer happy. The player will be paid for his work, as in any other part-time job, and the type of payment the player will depend on its performance. Talk to him and he'll tell you about his idea for a museum store. 3 Sit in the mayor's chair and go to public works projects. You'll find the Museum Shop on the list, so choose it. You can't suggest a public work project if there is one that needs already outstanding donations. Pay all your money for any public work projects you still need to complete first. 4 Go to the station and find Loid. Pay him 198,000 bells and the next day you'll have the Museum Store. 1 Work on the requirements for the construction of the Roost Cafe below. He must have donated at least 50 items to the museum. Three villagers (not always from your city) and a special character will come and ask for coffee. Each sat has their own favorite type of coffee beans, the amount of sugar, and the amount of milk. Options for the type of beans are mocha, mixture, blue blue kilimanjaro. The options for the quantities of sugar are none, one tablespoon, two tablespoons and three tablespoons. The options for the quantities of milk are none, a little, regular quantity and batches. Remember their favorite combinations because they will usually say only once, and you'll be paid better for giving them their favorite combination. Create a table if it helps. This way, you can see which beans and amounts each character prefers so you can get right where they come back. 4 Complete the shift. After each change, the number of favorite combinations you make will determine the type of brewster coffee beans you will offer as payment. If you have 1-4 combinations right, then Brewster will give you normal coffee beans. It's worth 500 bells at Re-Tail. The items you will give are: Cream and Sugar Coffee Cup Coffee Coffee Filter Espresso Siphon Brewstoid (tall, mega regular and mini) Cafe uniform Add New Question I had seven cups of coffee, but I can't work yet, why? There might be seven in a row. If you are fine with travel time, you should be fine, but if you are not, it could be difficult, depending on your schedule. Question Can two people who play on the same system get a part-time job at the shelter? For example, if one person gets the job, will the other be able to get the job? Both players should be able to get a part-time job at the Roost Café, as long as both had seven cups of coffee. Question do you get a job at the café? Get seven coffees in total, then Brewster will tell you that you can start working tomorrow. Question How long does it take to get coffee shop furniture (other than coffee makers)? After you have bought at least seven cups of coffee, be sure to talk to him on the right side of the bar twice. The first time he'll greet you, and the second time he'll ask you if you want to work there.
